My name is Gabriel Pacheco Motta, I am a Web Developer fully dedicated to creating exceptional web experiences with clean and minimalistic user interfaces that look great and function seamlessly.

PROFESSIONAL EXPERIENCE

- VAROS – Full Stack Web Developer
2022 – Present

As the lead developer responsible for our website, I oversee the creation of both static and dynamic pages using Nextjs 14 with Tailwind, in collaboration with our design team.

Over the past two years at Varos, I have achieved several milestones, including:

- Migrating from WordPress to Next.js, Tailwind and Typescript.
- Building a full-stack blog from the ground up. From the admin dashboards to the final pages available to users.
- Transitioning from Vercel to a self-hosted VPS.
- Setting up various AWS resources such as S3, CloudFront, Route 53, and EC2.
- Developing our own educational platform, complete with an integrated checkout system for managing payments.
- Currently building a consultancy platform.

SKILLS

- Next js
- React js
- Typescript
- Tailwind
- Figma
- Node js
- SQL
- Git
- AWS
- Scrum

EDUCATION

 Anhanguera

Degree – Software Development
2021 – 2023
